ABOUT
US

The Group Vitamin Agricultural Product. Trade Inc. family started its business journey with agriculture and food in 2006 and joined the international business network by entering the export sector in 2020. It supplies fresh fruits, vegetables, organic products and food products to many countries of the world, especially Turkey.

With its 15 years of experience, it has always approached its customers positively and understandingly. As Group Vitamin Tarım Ürün. Tic. A.Ş.; we are proud to offer friendly solutions to our customers with a brand that has gained a corporate structure and a professional team integrity.

OUR FIELDS OF ACTIVITY

We harvest, process, package and deliver fresh fruits and vegetables to our customers within 24 hours after the order. Grup Vitamin Tarım Ürünleri A.Ş. has always been a leading company in the sector with the services we have provided and the investments we have made since 2012 with our understanding of quality, sustainability and customer focus. Long-term partnerships based on trust with our customers, business partners and suppliers are our priority.

MISSION & VISION

As the most reliable supplier of the business world, we work to meet the nutritional needs of employees by providing fresh, delicious and healthy fruits and vegetables to institutions and workplaces where mass meals are consumed every day.

We want to be Europe's leading wholesale fruit and vegetable supplier by 2030.

We are in a situation where we have almost rediscovered the quality standard of the sector we are dealing with in our country. While many companies are struggling to keep up with the standards we have set, our company is already designing new things and differences for the future. In this case, it is a proud situation that all these admirable applications and services are available within the standardized organization.

The Group Vitamin Tarım family does not even consider offering unhealthy and second-class products for sale, and plans to supply fruits and vegetables preserved in cold storage even if it is not the season for fresh fruits and vegetables.

OUR VALUES

We are pioneers in innovation in our sector

Innovation is one of the core values of our business. By constantly moving forward with innovative ideas, we aim to be a pioneer in the supply of fresh fruit and vegetables in the sector.

We Create Value with Our Employees

We attach importance to acting in accordance with business ethics, being honest, and standing behind what we say in our relations with our employees. We consider our employees as the noble values of our company and believe that customer satisfaction is achieved through employee well-being.

Sustainable Customer Satisfaction with Service and Product Quality

We adopt 100% customer satisfaction as a basic principle and aim to increase customer loyalty by continuously improving service and product quality. We strive to be a pioneer in the sector as a reliable supplier by responding to the needs of our customers carefully and in a timely manner.

We are with Women for Women

Women have always been important to us and will always be our priority. We strive to ensure that women are represented equally and that positive discrimination is implemented in our business. We work with women to increase awareness of women and facilitate access to job opportunities.
